SUMMARY OF ST. LOUIS MARKETS.

Profit-takers and scalpers ruled the local grain market yesterday. While wheat lost some of the gains made the previous day, it was not decidedly weak, and at the close there were signs of returning firmness. Foreign markets were higher at the opening, and, though there were declines during the day, the closing figures at Liverpool and other European centers were above those of Thursday. Early in the session there was some good buying, but periodical selling by longs caused declines. While receipts of whent at Minneapolis and Duluth were heavy, this did not have the bearish effect it might have had in a less vigorous market. As an offset came the statement that millers in the Northwest had been forced to raise the prices on flour because of the

Corn was decidedly weak under the presence of continued selling for profit-taking account. Most of the news was bullish, but the market was so purely speculative that the usual ruling factors in trading had little effect. Receipts, both locally and at primary points, were smaller than on the corresponding day of last year.

Profit-taking was popular early in the wheat pit as the result of disappointing cables. There were advances both at Liverpool and on the Continent, but not enough to stimulate more buying here of yesterday's sort. In the main this pit followed wheat witnout developing anything of individual importance, Dec. opened unchanged to \$604c higher and never rose above its higher opening price. Liquidations for profits by prominent longs brought easier prices, and though there were occasional railies, Dec. closed weak by lower, at 194c. The cash demand was still good, receipts were still scanty, but the market could not stand the constant unloading. Receipts were \$0 cars. Oats.
Oats held well, considering the general

liquidation. The commission-house demand had cased off and prominent longs realized. Dec., which opened unchanged fluctuated by and closed easy, legita lower, at 33-55. The cash situation still was good. Receipts were 145 cars.

FOR LOCAL TRACTIONS.

BALANCE IN FAVOR OF ST. LOUIS.

United Railway 4s Advanced Ray idly in Yesterday's Market.

United Endways 4 per cent bonds were asily the feature of 'yesterday's local stock so heavy, especially at the afternoon session, that there was some ground for the at work. Those who felt called upon to explain the rapid appreciation of the bonds said the buying orders had come from Eastern investors, many of whom had let go their holdings of Transit and preferred in the last few days. Some of the local bondholders sold with handsome profits yesterday, and in hearly every instance reinvested their money in stocks of the Transit and United Railways companies. From the surface indications it appears that terday, and in nearly every instance reinvested their money in stocks of the
Transit and United Railways companies.
From the surface indications it appears that
there is a financial contest on between the

present the Easterners prefer the bonds.
They are getting them, but at figures dictuated by the local holders. On the other
hand, inventors here and in other Western
cities are picking up the stocks on every
break in New York. Up to date the binace
of profit is largerly in layor of St. Louis Investors.

At yesterday's morning session 115, 10

worth of the bonds changed hands at 121,50
a record price. The other tractions were
by no means neglected. St. Louis Transit
was in excellent demand and steadily adcancing. The first sale was of a lot at
130,50. An aggregate of 257 shares soid at
this figure. The stock was firmly held at
130,50. An aggregate of 257 shares were forced
to pay that price.

United Kaliways, preferred, was bought
early in the session at 185,50 for a lot of 30
shares, but later 233 shares were bought at
185,452.

Mechanics' National led the banking list
with a series of sales at the highest prices
ever paid for the stock. The range was
from \$20 to \$32, with sales at both extremes, and the point between. A total of
125 shares changed hands in the morning.

Lincoln Trust was strong and sold higher,
There was considerable inquiry for Missouri
Trust, but the stock was so well held that
only 40 shares were bought at 819. In the
miscellaneous list Granite-Bi-Metalic,
Brewery 6s and Cotton Compress 6s were
most active.

The bulk of the day's trading was done
at the afternoon session. Again the United
Railway's is were the cellers half-way, and
the result was there was no room for doubt
as to the firmness of these securities. Afte
